Governor Seymour on Education. There is no good thing in the world so perfect that it may not by misrepresentation be held up as an evil; but it does not follow that because of of insulting snobbery. The Governor that misrepresentation the good thing has lost its excellence. Just so it is with our system of education. It is as admirable to-day as it ever was; if fostered, as it ought to be, it will con- remain without any education than to tinue to produce admirable results; and no true well-wisher of the Colony can read, save with a mingled feeling of dieappointment and pain, the Governor's message on the subject to the Legislative Council. The document is one of the most silly that ever aspired to rank as a State paper, and whereemanation so utterly devoid of common puzzled to explain the meaning of one paper-to state that the Governor is in favor of the adoption of a similar system of denominational education for this Colony that exists in the semi-barbaric Colony of British Honduras. Governor Seymour insults the com. mon sense of the country when he asserts that "any man who respects himself would not desire to have his children instructed without some pecuniary sacrifice on his own part." LEGISLATIVE COUNCIL PROCEEDINGS.

[Specially Reported for the British Colonist.]

Saturday's Sitting.

SATURDAY, Feb., 23rd 1867.

Hon Helmeken called the attention of the hon Colonial Secretary to the fact that it would afford much satisfaction to hon members and the people generally, if the execube seen what the policy of government was

Registrar General, \$2,290.

Hon DeCosmos again objected to this item asserting that the office had been created in Vancouver Island for an institutual, and that it was a source of revenue. He considered the salary with the additional labor incurred by registration under the Bills of Sale and Homestead Acts if reduced would be too low for a professional man to accept, the present incumbent having already threatened to resign. Apart from this, however, the motion could not be carried as this salary must be treated in the same way as the Crown salaries, and if the Council thought it too large the reduction could only be made by request to the Governor.

Hon Crease spoke in favor of retaining

the office intact
Hon DeCosmos said be had been engaged half a day in the Registra was in his chambers attending to his private practice, and was the country to pay £400 a year for that? This was what he objected to. He that? I his was work no objected to. Its regarded the present incumbent as a man of integrity and ability, but his idea was while allowing the gentleman to follow his chamber practice to pay him adequately for the service rendered.

Hon Young, in answer to Hon Southgate explained the circumstances under which the Regiserar had been permitted to practice, and the advantages offered by the office for secur-ing and transferring titles without the inter-

vention of lawyers.

Hon Pemberton looked upon the office as

a most useful one and could not vote for its abolition.

Hon Helmcken would vote for the amount, ing out the Jews) must agree. It is merely calling upon a man picked up at random, allured by a trifling salary, to do what the whole religious wisdom, feeling and affection of the world has not an affection of the world has not with practice was too large, but this amount with practice was too large, but this he did know that the Governor recommended the application of the law of Vancouver Island to the mainland.

the whole deed was recorded instead of abstructs made by professional gentlemen. He was glad to see one hon gentleman not prepared to support a vicious system because it came from Victoria. He went in for economy.

Hon Birch did not approve of the system, but the amount must be voted this year, at After some further comments Mr DeCos.

Hon Helmcken moved that this item ha hon Colonial Secretary was government pilot, [laughter] and as to the Light Ship

Chief Commissioner and now he was to be Government pilot. This appointment came from home in 1858, and though he agreed that there was not sufficient work for the harbormaster to do, there was every intention to utilise him in another way in Victoria, where he would have duties in connection with the customs and piloting. Hon Young said the hon members from

Hon Brew said there was no doubt of the

advisability of amalgamating all the gaols here and elsewhere, but there was no place that could afford sufficient accommodation.

Hon Helmcken spoke at length in favor

of the proposed amalgamation with the head office et Victoria as a grest saving. The \$4 a head on prisoners from the mainland was

Hon Walkern did not know whether any change was contemplated in these districts and would like to ask whether it was

thought necessary to have two Commis-

missioners were sent to their posts too soon and the country had to bear their travelling

expenses for three or four months.

Hon Birch said that was a constitutional

question. The hon gentleman deuled that

the Commissioners were sent to the mining

camps too soon, and enlightened the House on this point; in speaking of Kootenay he

aliuded to Lynch law, which he said the hon junior member for Victoria wished to be introduced.

Statistics showed that the We might have been stuck there for a week the Estimates passed and the country ruined.
While we were on one sandhead we could do cost of keeping prisoners at Victoria would be less. The hon gentleman continued at 1-ngth to denounce the system of sending

nothing with the other sandheads [laughter]. Hon DeCosmos regarded this as a question of amalgamation. If the steamer to the settlements was to be continued, her captair might be harbormaster and when not employed the vessel c uld be used for laying buoys. The time now devoted was inadequate for the amount paid; he should, however, not move for its abolition as the Government

had made up its mind not to eatry out a practical system of amalgamation.

Hon Stamp said the proposition was impracticable as the duties could not be atmay laugh, but I don't say, anybody in this House is a lunatic. (Laughter).

After some further discussion the motion to strike out one constable, warden, gaolers, was lost by a vote of 10 to 9. Walkem's resolution that the gaol be removed to Victoria and necessary alterations made, and that the High Constable's solary here be \$1200, was lost, an amendment by Macdonald being carried directing the attention of the Executive to the necessity of removing the prisoners to Victoria.

Total \$6870 carried by 10 to 9.

Magistrate, Victoria \$12341. Passed.

The items under the head of Gold Commissioners and Magistrates were then taken up

Hon Robson regretted the small salary put down for the services of this officer. The sum asked for was so contemptibly small that he hoped the Government would see their way to increase it, and he moved in amendment that it be increased to \$2250. Hon Helmcken replied that he voted for

striking it out as the finances made it indisensable to save all we can.

Hon Robson's motion was lost—ayes 4. Hon Robson—Then blot him out a together; it is better to do that than to give him a starvation salary. For striking out: Ayes—Southgate, DeCosmos, Helmcken, The item of \$1800 was carried.

Hon Cox in reply to 11on Macdonald said

the amount put down for William Creek— \$80 per month-was as small as the mail duties could be done for. Mr Birch made a few remarks in regard

nostal matters at Cariboo.

Hon Walkem suggested increasing the pay of one of constables who should perform the duties, and on the arrival of the nail distribute the letters down the Creek. the removal of the Post Office at Victoria to

the removal of the Post Office at Victoria to a more suitable quarter.

Hon Birch said that the landlord had consented to reduce the rent considerably the last six months, and the removal of the office would entail a large extra expenditure which the finances of the Colony did not instifut. justify.

Hon Helmcken looked upon the words

Victoria" after Deputy Postmaster as very objectionable.
After a few remarks respecting the tenure

of the property whither the office was pro-posed to be removed, the item was amended by erasing the words "Deputy" and "Har-bor Master, Victoria."

Hon Birch, in answer to an enquiry, said that the sum of \$750 for Clerk and Messenger was for New Westminster.

Hon Helmcken—What in the name of conscience is there to do in the Post Office at

New Westminster? Seriously, I would ask is there work for one clerk, or is the scheme of amalgamation a mere sham?

Hon Birch said the hon gentleman had unfortunately come here in the winter, and so supposed no steamers visited the place and nothing was done here; but there was as much work done here as anywhere. Hon Pemberton thought the item was for Victoria, which it should be, there being as

much work done there in one day as here in hree months. Hon Helmcken-The Generals must have

Hon Robson supported the amount; it

Hon De Cosmos reprimanded the Hon Robson for the course he was pursuing as one of the people's representatives, who had advocated and support retrenchment.

Hon Robson replied to the effect that he was quite satisfied to go before his constituents on the course he had pursued in regard to the Estimates, which he had considered carefully, and believed were framed with the greatest possible regard for economy. economy.

Hons Smith and Barnard advocated the removal of the head office of this department to Victoria, where it would be of more service to those up country in forwarding foreign mails, etc.

foreign mails, etc.

The latter moved to that effect.

Hon Birch said they did not know what
they were doing. The office of Postmaster
General was amalgamated with that of Registrar, and there was nothing asked for

him.

Hon Young considered that the head office should be at Victoria. There was another consideration why it should be there and that was on account of the Ficet.

The motion was carried on a division by 11 to 8, and the items passed. Judicial, \$8999.

Hon Helmeken moved that the Vancouver

Island Supreme Court be retained and a third judge, to constitute a Court of Appeal, at £800 a year be voted. Carried. The judicial items were all carried.

Police and Gaols \$6870,

Hon Walkem thought a fair opportunity from Walkern thought a last opportunity for amalgamation was presented under this head, and he hopod in any change that might be effected discretion would be exercised in giving preference to those who had been longest in the service. — He proposed the following: that the Council recommend the removal of the head office to Victoria and that the following be dispensed with: Medical officer. \$500: Warden, 1220. et the that the following be dispensed with: Medi-cal officer, \$500; Warden, 1220; two Gaolers \$1400; which would be a saving of \$3120. The same duties would be per-formed under this scheme, the guardinaship being only extended. The salary of the High Constable was too small, and he therefore moved that it be raised from \$940 to \$1220. That of the two constables only one would be retained, who would act as gaoler; such provision being made for the warden as may seem fit having in view his long service. The hon member continued at some length, discussing the prison and penientiary system, the capacities of Victoria gaol to accommodate 65 prisoners, the insecurity of the gaols on the mainland, which necessitated chains being put on (a practice which should never be resorted to)

before being found guilty; and concluded by urging that the establishment be so reduced and removed to Victoria, the institution here A. W. PIPER, CONFECTIONER be merely retained as lock-up cells, with the High Constable as keeper.

Hon Birch thought that if a centra Government st,, opposite Theatre, position was the object, Clinton or Yale should be the place. Some \$4 or \$6 more would be incurred in sending prisoners to

Goods of every description manufactured and sold, Wholesale and Retail.

Victoria, and he had yet to learn that that would be conomy. Besides, Victoria Gaol would not hold all. By last retorns there were 45 there, and 26 here, and it was useless to tell him that more gaolers and police would not be required below. The Magistrate complained as it was of being short handed.

CITY COUNCIL-IMPORTANT BUSINESS .-This body met last evening. Present-Councillors Trahey, Gibbs, Gowen, Layzelle. Councillor Gowen in the chair. The Committee appointed to examine the copy of the Government Assessment Roll, reported that the same was correct. Received and adopted, The Council then went into Committee of the Whole on the Rental and Insurance Returns. Upon the Committee rising, a resolution offered by Councillor Hebbard, as follows, was carried: "That the clerk be instructed to notify the Insurance Companies that the Council, in accepting these returns and levying an annual rate of onetenth of one per cent, upon the amount thereof, do so without prejudice to any investigation that may hereafter be deemed necessary relative to said returns." On motion, the clerk received instructions to notify the publie that the rate levied on real estate is onequarter of one per cent. for the year; that the rate upon rentals is three per cent.; and upon Fire Insurance Companies, that the rate is one-tenth of one per cent. per annum upon the amount of business transacted as per returns. All of these rates to be payable quarterly, and that the first instalment is now due, and payable at the Clerk's office, City Council Chambers, between the hours of 10 a. m. and 4 p. m. Council then adjourned until 6:30 o'clock on Monday evening.

CASUALTY AT ESQUIMALT. - About 12 o'clock on Thursday night, a boat belonging to H. M.'s gunboat Grappler, manned by four men, left the wharf at Esquimalt to board H. M. S. Sparrowhawk, but on the way the vessel was capsized, and two out of the four occupants were drowned. The remaining two clung to the boat and were saved by boats that put out almost immediately from the gunboat Forward. One of the drowned men was the ship-keeper of the Grappler, and the other, chief stoker of the Sparrowhawk. The accident occurred through carelessness. The bodies had not been found up to last evening, notwithstand. ing that a diligent search was made all day by the comrades of the unfortunate men.

To preserve your health, cleanse your blood when it becomes vitiated and foul. Many are the symptoms which sound the note of alarm. Full not to heed them. Indigestion, Nausea, Lassitude, Headache, Wandering Pains, Bilious and Eruptive Affections, are so many signals to tell you of disease in the blood. Remove it, and they disappear. How ! Take AYER'S COMPOUND EXTRACT OF SARSAPARILLA. It is effectual for its purpose; purifies the blood, expels disease and restores the deranged functions of the body to their healthy action .- Corydon (Ind.) Argue.

Is IT A "GOAK ?"-We find the following unique notice in the last Government Guzette COLONIAL SECRETARY'S OFFICE, February 21st, 1867.

The Governor has been pleased to appoint A F Pemberton, Esq, to be Commissioner of Police, to enable the provisions of "The Swine and Goat Act, 1862," to be carried out. By Command. Arthur N. Birch. Weally! what next? What have the poor

swine and goats done to require the appointment of a "Commissioner of Police" for their especial destruction?

WATCH THEFT-Francis Hall is accused by Charles Wilkes of robbing him of a silver watch worth \$10. The complainant states that he lay down in the same room with the accused and another man, and that his timepiece, that was going when he went to sleep was gone when he awoke. There is a wo man mixed up in the affair somewhere, and the Magistrate remanded the case until Monday.

MARCH came in, comparatively speaking, like a lamb; but a cold, raw breeze from north prevailed all day long, sending the mercury of the thermometer down to the freezing point, and rendering life out-ofdoors very disagreeable. Physicians tell us that northers are the most unhealthy winds in this latitude, and they always caution their patients to go well wrapped up on such occasions.

Dr. J. Collis Browne's Chlorodyne .- CAUTION

Scrofula, or King's Evil.

Is Constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial dicease, low living, disordered or unhealthy food, impare air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children anto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterntive medicine, and invigorate. Importers & Wholesale Dealers in Fine

Robin Sazerac Compound Extract of Sarsaparilla, Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most netive remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrotula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPLAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RIBLUM, SCALD HEAD, RINGWOMM, RIBLUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAIN'S ARISING FROM VITIATED OR INFURE BLOOD. The popular belief in "impurity of the blood," is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without w"th sound health is impossible in contaminated constitutions.

So wide is the field of its usefulness, and so manerous are the cases of its cures, that almost every section of country abounds in persons, publiely known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten. FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can, arely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausca, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Apottle, Jaundice, and othe kindred complaints, arising from a low state of the body or obstruction of its functions.
